## SKILLS

HTML/CSS | C/C++/Objective-C | C# | JAVA | JavaScript | React |  
Prolog/SML/Racket. Web development, Mobile Development. Game Development.  
Hardware. Software.

## EXPERIENCE

### **Pike Nursery, Johns Creek Ga. – Loader**

2011

- Worked a year at Pike Nursery taking care of/managing thousands of plants and working with customers on specific plants they may want to buy; which made me have to grasp an extensive knowledge on plants, flowers, sod and overall how to work with a team.

### **Paddle Boston, Cambridge Ma – Dock Hand**

2014 – 2015

- Worked at Paddle Boston as a dock hand. In this position I worked with a team of great people helping thousands of customers every single day in and out of kayaks/canoes. I received extensive safety training and worked long hours helping/working with customers and other dockhands alike.

### **Kansas State Athletics, Manhattan Ks – Maintenance**

2015 – present

- Working for Kansas State Athletic Department as a maintenance worker. This job has an extensive list of skills and adaptability that includes but is not limited to. working with a large team of other workers, mowing/leveling/edging/mowing/painting fields multiple football fields wide, general car maintenance such as oil replacement tire replacement, brake fixing. Other skills learned included room painting from floor to ceiling, knowledge in fertilizer, baseball field/pitching mound maintenance/replacement. This job has been an all around great experience and was something new every day.

## EDUCATION

### **Kansas State University, Manhattan Kansas** – *Computer Science*
