1401 College Ave Apt. A206, Manhattan, KS, 66502 ■ SchrickH@gmail.com ■ (770) 363-9450

## Education

Kansas State University | December 2019

Bachelor's in Computer Science College of Engineering

## Experience

Self-Directed Application Development | 2019

Attendance & Sentiment Analysis through Twitter API — Senior Project

- ❖ Users' receive private key in form of hashtag, post selfie at event with comment.
- ❖ Takes attendance of each user between 0 & 24 hours of the event.
- ❖ Analyzes text of each user and places them within an emotional category about event.
- ❖ Combines all user sentiment about event and outputs an overall sentiment.

Produce Clerk/ Hy-Vee | 2019

- ❖ Kept the produce area of the store well stocked and organized. Taking calls and helped all parts of the store when needed.

Field Maintenance/ K-State Athletics | 2016-2018

- ❖ Worked with a large team of people painting, mowing, edging, sand leveling, sodding and seeding all fields for the college teams at Kansas State University.

Dock Hand/ Paddle Boston | 2015

- ❖ Collaborated with a team helping thousands of people each day safely enjoy Boston on Kayaks.

## Beginning Stages

Began Programming | 2014

- ❖ At age 17 built 3 iOS apps using Objective-C. 2 of which earned 40,000 combined downloads over a period of roughly 3 months. This was a great introduction to building software for me as I was my own teacher and able to experience planning, design, and execution before receiving professional experience in university.

## Computer Science Classes

- |                                    |                                  |
|------------------------------------|----------------------------------|
| ❖ Data and Programming Structures  | ❖ Software Testing Techniques    |
| ❖ Software Architecture and Design | ❖ Applied Matrix Theory          |
| ❖ Computer Architecture/Operation  | ❖ Database System Concept        |
| ❖ Discrete Mathematics             | ❖ C/C++ Language Lab             |
| ❖ Programming Languages            | ❖ Log Foundations of programming |
| ❖ Algorithm Analysis               | ❖ Concurrent Software Systems    |

## Skills

Python, C/C++, HTML/CSS, JAVA, Objective-C, C#, React, JavaScript, Swift, ASSEMBLYX86, iOS/Mobile Dev, Web-Dev. Fast Learner, Attention to detail, Team-Player, Positivity!
